

electronic lock OS SLIM CODE

The OS SLIM electronic lock stands out for its slim design with narrow escutcheons that give the door and the room a plus of style and elegance.

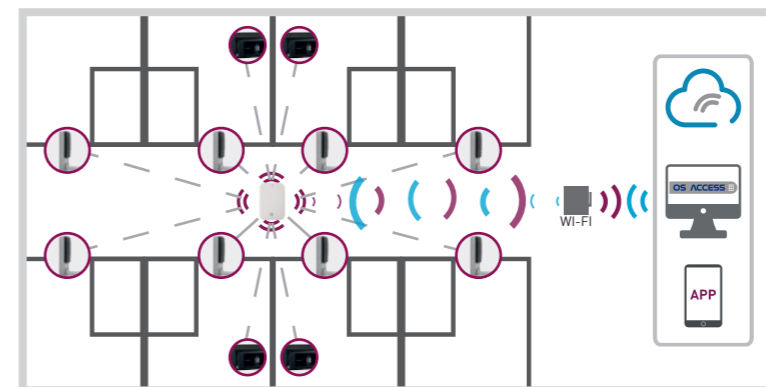

DESIGN

Lock with slim design escutcheon, straight lines, narrow profile and minimalist concept

CONNECTIVITY

Remote opening & management, including Gateways in the installation

electronic lock OS SLIM CODE

Its high technological level combined with the opening via **Bluetooth**, **MiFare proximity card**, **numerical code** and **remotely online**, through Gateway, make OS SLIM one of the models with the greatest projection in the hotel sector.

VERSATILE

Its slim design escutcheons adapt to any kind of room doors and aluminium doors with a narrow profile in common areas of the hotel

ROOM

KEY & USB

- **Design**, slim profile escutcheon, with narrow and straight lines.
- **Bluetooth**, for guest openings, setting up, management and maintenance of the lock.
- **On-Line**, remote opening and management by including Gateways in the installation.
- **Unlimited Audit Trail**, openings, opening attempts, exits, etc. Audit synchronized with the front desk PC.
- **Control**, installing in a room the EVO lock, the EXO safe and the Gateway allows remote management and control of both devices. Compatible with the **GUEST-PRESENCE** security function of the EXO safe.

features

- **Opening via Bluetooth, MIFARE proximity and numerical code.**
- Option to open and manage online by installing Gateways.
- Escutcheon with **adaptable handle**, for doors of left or right opening.
- PVD (Phase Vapour Deposition) lacquered colors, with greater resistance to abrasion and corrosion.
- Guaranteed operation in the most adverse climatological environments. Stainless steel AISI 304 or AISI 316 manufactured.
- Electromechanical privacy function with exterior visual indicator to prevent entries of unauthorized persons.
- Hidden mechanical cylinder, for auditable emergency openings, and micro USB type C connector for power in case of depleted batteries. Both hidden and protected with a rubber cap.
- Visual and acoustic indicators to facilitate their use by disabled persons, as well as for additional functionalities such as low battery warnings to personnel, privacy indicator, etc.
- Single app for administrator, hotel staff and guests. UpKey allows different functionalities according to the registered user profile.
- The guest is automatically logged into the app via a link created by the hotel, which the guest receives in an email.
- Customised app option and integration with third parties.
